VESSEL WILL CROSS DESERT

Steamboat Will Navigate Canyon of Colorado River—Built for Use of Mining Company.

San Francisco.—One of the strangest projects of navigation ever known is to be put under way with the completion of a steamboat that is now being constructed at a local shipyard. The craft is first to cross the desert and then is to be launched on the Colorado river and navigate part of its deep canyons. She will be 70 feet long, of 83 tons, and will be driven by stern wheel.

She is being built for the use of a mining company which has been conducting some large operations in taking gold from the bed of the Colorado canyon at Lees Ferry, Ariz. This is the only crossing on the river for hundreds of miles, because the stream runs through great sand cliffs which start well up in Utah, and a few miles below the ferry it dips into the Marble canyon, which then leads into the Grand canyon, and the water goes through the Buckskin mountains far below their summit.

Although the river throughout most of its course is wild with rapids and falls, there is a long stretch in the vicinity of the ferry house where it runs smoothly, and the current is not too strong. It is for the purpose of taking workers and supplies up and down stream in the gold operations and for carrying coal from a deposit that has been found in the Marble canyon that the vessel is being built. She will have a speed of ten miles an hour, enough to overcome the current, and will enable the gold hunters to reach places now inaccessible.

The boat will be built as any other, and after she is completed she will be taken apart, put on a train, and taken to Flagstaff, Ariz. From this point she must be taken over a sandy waste for 200 miles by wagon. At Lees Ferry a crew of men from the shipyards will put her together again and launch her. The operation will be costly, but the miners expect to pay for the steamboat soon with the wider operations and make her a fine investment.

Persons who have been at the ferry will await with interest the attitude the Navajo Indians will take when they first behold the monster of the water as they cross the river for their trading with the Plutes. Nothing the whites have brought to their attention so far has shaken their stoic calm, but this revelation may do so.

BASEBALL ALIBI FREES MAN

Chicago Municipal Judge Accepts Prisoner's Story of Game and Dismisses Charge of Theft.

Chicago.—Nicholas Brown's "baseball alibi" won his discharge the other day when he was arraigned before Municipal Judge Caverly at the Chicago avenue court charged with having stolen two suits of clothes from the home of Joseph Fisher.

When arraigned a week ago Brown declared he attended a doubleheader between the Cubs and Philadelphia teams September 14 and that he was at the West Side ball park at one o'clock that afternoon.

The court procured a score card and then interrogated Brown, who stated that Reulbach pitched the first game for the Cubs and Alexander for the Philadelphia. The score card bore him out and the judge continued the case for investigation.

"Have you policemen any additional evidence against this defendant?" the court asked.

"No, your honor," replied Policemen Stark and Baynes, who arrested Brown.

"Well, his baseball alibi has made good," replied the court. "I am satisfied he did not commit this theft. Brown, you are discharged."

CAT SLEEPS ON \$16,000 RUG

Lives All Night in Waldorf-Astoria Safe, Which Is Supposed to Be Airtight and Burglar Proof.

New York.—When Frank Allstrom, treasurer of the Waldorf-Astoria, opened the inner doors of the big safe in his private office he was greeted by a stray black cat which jumped from a vault containing \$16,000 in fresh, crisp bank notes.

Mr. Allstrom could not explain how the tramp cat happened to be in the safe. Although the massive steel vault is airtight and burglar proof, the cat seemed none the worse for its sixteen hours of imprisonment.

"After unlocking the safe," Mr. Allstrom said, "I reached into the vault where I had placed the bank notes. I was never more surprised in my life than when the big, black cat yawned and looked at me as though to ask, 'Is my breakfast ready?'"

"We have been unable to ascertain how the cat gained access to the safe, as the inner doors are at all times kept locked. None of my assistants can recall seeing the cat in the office before we closed the safe on Tuesday afternoon."

Run Submarine by Wireless.

Portsmouth, England.—Successful experiments with the wireless control of submarine boats have been made, but the details are kept secret. It is known, however, that a submarine was taken to shallow water off Selsey while the hertzian waves were worked from the cruiser Furious. The submarine, which was on the surface, was found to be entirely under the control of the cruiser. Then the crew was taken out and the experiment was equally successful when the boat was submerged. Similar experiments are being made with torpedoes.

This compound, known as D. D. D. Prescription, will cool and heal the itchy, burning skin as nothing else can. Get a regular bottle and see—on our no-pay offer.

CAUSE AND REMEDY.

Uncertainty of the immediate future is looked upon by many men of affairs, as a blockade to enterprise and business prosperity, and this blockade is now quite apparent throughout the channels of trade.

The Presidential Election; the efforts of Congress with no fixed purpose; Organized Labor as a new factor in politics; together with other matters of greater or less import, represent at this time a chaotic conflict of separate interests, to harmonize which is now the problem before the country.

All want Prosperity, Peace and Plenty. Read with care the Cincinnati Enquirer, a journal that prints all the news each day from every commercial center throughout the world. A barometer of causes and effects that points out, as a Beacon Light, the danger and the safeguard therefrom.

As well known, the Daily Enquirer is the largest in size and highest priced paper in the United States, yet cheapest, measured by quality and quantity.

The Weekly Enquirer, with the cream and digest of all the news, able and conservative editorials, market reports, methods and results from Government and State Experiment Stations, veterinary matters, People's Forum, choice literature, short and continued stories, non-sectarian sermons, general information, etc., with the exclusion of all matters of scandal and immorality, is today the Cleanest Weekly Family Journal obtainable. Each issue is alone worth the price of a year's subscription.

Solicitors for subscriptions make a handsome profit and increase the good influence of The Enquirer in the uplift of morality and industry, and for the betterment and welfare of the community. For terms write to The Enquirer, Cincinnati, Ohio.

IN THE TAILOR-MADES

SMART COSTUMES THAT DESERVE THEIR POPULARITY.

One Point in Absolute Demand, and That is That Accessories Shall Match—Good Idea Shown in the Illustration.

The tailor made girl is a distinct species in dress, and no matter what frivolities come into vogue for street wear, there she is always in the nearest of rigs, with every accessory matching, and looking far more dashing than her befrilled, befeathered sister.

For quite young girls there are some very smart short coats in plain cloth which mothers often buy for wear with a striped or checked skirt in the same color. Again the suit will be made up in this manner with a bit of the skirt goods used for an under collar and cuffs of the coat, and if the girl is of the type that needs more dressiness than the plain one-material styles allow this combination is very acceptable. Such a get-up is given for a girl of 16 in the illustration, plain blue cloth and a pretty wool in two shades of blue being used. An entire suit of blue serge would be very good and practical in this model, whose collar permits, if liked, the stylish finish at the back.

The draped turban the girl wears is a suitable headpiece for the suit and it follows one of the fads of the moment in using a bit of the skirt stuff for a side trimming.

What doesn't the world use nowadays for trimming? Almost everything is seen, and with a little taste and fin-

ger cleverness anybody can copy some of the most distinctive French garnitures. For example, a stunning black wool dress seen recently showed a collar of white cloth treated to a mysterious edge which turned out to be no more than coarse black wool crocheted on. The edge was directly worked on the cloth—a little lattice design—and below this a single row of bright green wool, caught down with black, was a lovely finish.

Aside from the importance of the hat, nothing smartens up a stylish tailored get-up like a handbag of harmonious and distinctive sort, and here lies the greatest opportunity for home taste and dainty work, for the bags are made of every conceivable texture and the more home-made they look the more charming they seem. Some neat little envelope shapes, not very big, but with cord and tassel of silk, are 90 cents. These are in suede and dressed leather, and they look quite elegant with the simpler suits. Heavy gloves and a good umbrella kept neatly folded when not in use in its snug case are other requirements for the tailored rig, and one of the stunning colors of the day for both of these is the smoky gray already discussed. The approved gloves are of buckskin and of English make, holding the hand rather loosely, and in grays and rich yellows.

Hygienic Bathroom.

An old bathroom may be almost made over with unlimited white enamel paint. The woodwork, floors and wall may all be painted, even the inside of an old tub.

Before painting the tub, it is necessary to be absolutely sure that the tin is entirely free from grease; otherwise the enamel will soon crack off. In fact, two or three coats should be given it as a foundation for the enamel.

Entirely apart from the plumber's bill, a complete outfit for a bathroom may be bought for from sixty-five to one hundred dollars, including a porcelain enameled tub. Cheaper outfits may be bought, including the painted iron tubs. This estimate includes the plumbing appointments.—Harper's Bazar.

Stubborn Case

"I was under the treatment of two doctors," writes Mrs. R. L. Phillips, of Indian Valley, Va., "and they pronounced my case a very stubborn one, of womanly weakness. I was not able to sit up, when I commenced to take Cardui.

I used it about one week, before I saw much change. Now, the severe pain, that had been in my side for years, has gone, and I don't suffer at all. I am feeling better than in a long time, and cannot speak too highly of Cardui."

TAKE CARDUI The Woman's Tonic

if you are one of those ailing women who suffer from any of the troubles so common to women.

Cardui is a builder of womanly strength. Composed of purely vegetable ingredients, it acts quickly on the womanly system, building up womanly strength, toning up the womanly nerves, and regulating the womanly system. Cardui has been in successful use for more than 50 years. Thousands of ladies have written to tell of the benefit they received from it. Try it for your troubles. Begin today.
